Introduction

Welcome to the Quick Start Guide for updating WhatsApp Status. This document explains how to update and manage your WhatsApp statuses.

WhatsApp allows you to share multimedia content in your status that disappears in 24 hours. You can update your status from an iPhone or an Android phone.

Prerequisites

To update your status, you need a smartphone with internet connectivity.

Updating your Status

WhatsApp supports two types of status updates.

- Add one or more statuses to your existing status sequence.
- Delete one or more statuses from your existing status sequence.

The new status is added to the end of your current status sequence. You can update your WhatsApp status with the following types of content.

- Video
- Photo
- Text
- Voice

How to Update Status from an Android Phone

You can update your status from an Android phone by adding or deleting statuses.

Add a Video

You can either record a live video or select a video from your device to add to your status.

To add a video,

1. On the bottom pane, tap **Updates**.
2. On the screen, tap **My status**. This displays a list of your current active statuses.
3. Tap  at the bottom of the screen. A new screen opens with update options.
4. From the options, tap **Video**. The device camera opens.
5. Select a video using the following options.
 - Hold and press  to record a live video.

(Optional) To flip your camera before recording, tap .

- Tap  to select a video from the device.

6. Customize the video before adding to status using the following options.

- On the screen, tap  to add music.
- On the screen, tap  to add stickers.
- On the screen, tap **Aa** to add text. You can change the text color, font, and alignment.
- On the screen, tap  to draw. You can change the line color.
- On the screen, hold and drag the slider to adjust the start and end points.
- On the screen, tap **Add a caption...** to add a description.
- On the screen, tap **X** to discard this video. The previous screen opens that allows you to select a new status.

7. On the bottom pane, tap @ to select the contacts whom you want to mention in this status.

8. On the bottom pane, tap **Status (Contacts)** if you want to modify who can view your status.

9. Tap .

This adds a video to your status.

Add a Photo

You can update your status by adding a new photo. You can either take a photo with your phone camera or add a photo from your device.

To add a photo,

1. On the bottom pane, tap **Updates**.
2. On the screen, tap **My status**. This displays a list of your current active statuses.
3. Tap  at the bottom of the screen. A new screen opens with update options.
4. From the options, tap **Photo**. The device camera opens.
5. Select a photo using one of the following options.
 - Tap  to take a photo using your device camera. (Optional) To flip your camera, tap .
 - Tap  to select a photo or image from the device.

6. Customize the photo before adding to status using the following options.

- On the screen, tap  to add music.
- On the screen, tap  to crop the photo.
- On the screen, tap  to add stickers.
- On the screen, tap **Aa** to add text. You can change the text color, font, and alignment.
- On the screen, tap  to draw on the photo. You can change the line color.
- On the screen, tap **Add a caption...** to give a caption.
- On the screen, tap **X** to discard this photo. The previous screen opens that allows you to select a new status.

7. On the bottom pane, tap @ to select the contacts whom you want to mention in this status.

8. On the bottom pane, tap **Status (Contacts)** if you want to modify who can view your status.

9. Tap .

This adds a photo to your status.

Add a Text

You can update your status by adding a text.

To add a text,

1. On the bottom pane, tap **Updates**.
2. On the screen, tap **My status**. This displays a list of your current active statuses.
3. Tap  at the bottom of the screen. A new screen opens with update options.
4. From the options, tap **Text**.
Text is selected by default.
5. On the screen, type the text to add to your status. The typed text appears on the same screen.
6. You can customize the text using the following options.
 - On the screen, tap **Aa** to change the text style.
 - On the screen, tap  to change the background color.
 - On the screen, tap **X** to discard this text. The previous screen opens that allows you to select a new status.
7. On the bottom pane, tap **Status (Contacts)** if you want to modify who can view your status.
8. Tap  .

This adds a text to your status.

Add a Voice

You can update your status by adding a new voice message. This appears as a new status at the end of the list of your current active statuses.

To add a voice,

1. On the bottom pane, tap **Updates**.
2. On the screen, tap **My status**. This displays a list of your current active statuses.
3. Tap  at the bottom of the screen. A new screen opens with update options.
4. On the screen, tap **Voice**.
5. Hold  and record your voice.
6. (Optional) On the screen, tap  to change the background color.
7. On the bottom pane, tap **Status (Contacts)** if you want to modify who can view your status.
8. Tap  .

This adds a voice to your status.

Delete a Status

You can update your status by removing your status. WhatsApp automatically removes the status updates after 24 hours.

To delete a status,

1. On the bottom pane, tap **Updates**.
2. On the screen, tap **My Status**. This displays a list of your active status updates.
3. From the list, tap  next to the status that you want to remove. This displays a list of options.
4. From the list, tap **Delete**. A dialog box opens that asks your confirmation to delete.
5. Click **Delete**.

This removes your status.

Managing your Status Privacy

Your status is visible to all your contacts by default. WhatsApp allows you to decide who can see your status. The following options are available to manage your status privacy.

- Making your status visible to all your contacts
- Hiding your status from some contacts
- Making your status visible to some contacts
- Allow sharing of your status
- Sharing your status to Facebook and Instagram

How to Make your Status Visible to all your Contacts

When you add or update your status, by default all your contacts can view it.

To make your status visible to all your contacts,

1. On the bottom pane, tap **Updates**.
2. On the screen, tap . This shows a list of options.
3. From the list, select **Status Privacy**. This displays status privacy options.
4. Tap **My contacts** to let all your contacts see your status.

Your status updates are now visible to all your contacts.

How to Make your Status Visible to some Contacts

You can allow some contacts to view your status. You can perform this either by clicking **Status(Contacts)** on the screen while adding or updating your status or from **Status Privacy**.

To make your status visible to some contacts,

1. On the bottom pane, tap **Updates**.
2. On the screen, tap . This shows a list of options.
3. From the list, select **Status Privacy**. This displays status privacy options.
4. From the options, select **Only share with...** to share your status with selected contacts.
5. On the screen, tap **0 included** to select the contacts with whom you want to share your status.
6. On the screen, tap  to confirm.

Your status is now visible only to the selected contacts.

How to Hide your Status from some Contacts

You can hide your status from some contacts. You can hide either by clicking **Status(Contacts)** on the screen while adding or updating your status or from **Status Privacy**.

To hide your status,

1. On the bottom pane, tap **Updates**.
2. On the screen, tap . This shows a list of options.
3. From the list, select **Status Privacy**. This displays status privacy options.
4. From the options, select **My contacts except...** to hide your status from some contacts.
5. On the screen, tap **0 excluded** to select the contacts from whom you want to hide your status.
6. On the screen, tap  to confirm.

This hides your status from the selected contacts.

Viewing your Status Updates

When you update your status, your status is visible to your contacts.

To view your status updates,

1. On the bottom pane, tap **Updates**.

The green border around your profile photo in the status indicates a status update.
2. On the screen, tap **My status**. This displays the list of your current active statuses.
3. From the list, tap on the status to view.

This displays your status updates in chronological order.
